The key for SUMLEV is as follows:

040 = State

050 = County

Note: These alternative estimates were produced with the standard methodology, except that they do not incorporate overrides to our methodology (e.g., special censuses and challenges).

The estimates are based on Census 2000 and were created without incorporation or consideration of the 2010 Census results.

The April 1, 2000 Housing Unit Estimates base reflects changes to the Census 2000 housing units from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It also reflects changes from the Count Question Resolution program. An "(X)" in the Census 2000 field indicates a county that was formed or incorporated after Census 2000. Additional information can be found in the Geographic Change Notes (see <http://www.census.gov/popest/about/geo/changes.html>).
